CEEGEX holds a license to operate an organized natural gas market in Hungary on the base of section 114 of the Act No. XL. (GET) of year 2008 of the Hungarian Parliament on Natural Gas. The license in accordance with section 114 of GET gives CEEGEX the exclusive right and liability to operate the organized natural gas market. The license was issued by the Hungarian Energy and Public Utility Regulatory Authority (HEA) on 8th of November 2011 under the resolution number 806/2011.

The organized natural gas market, detailed in section 114 of GET, operated by CEEGEX is recognised as equivalent to a trading platform (TP) by the Decision of HEA dated on 29 April 2015 in accordance with the Commission Regulation (EU) No 312/2014 on establishing a Network Code on Gas Balancing of Transmission Networks and the Act No. XL. (GET) of year 2008 of the Hungarian Parliament on Natural Gas. Hereinafter, in the Market Rules the termination of organised natural gas market and trading platform should be understood as equivalent. CEEGEX is devoted to establish and operate an organized natural gas market in Hungary on the basis of the regulations of the Hungarian Gas Act and the permission of HEA, by promoting state-of-art natural gas trading platform and facilities, where natural gas trading and other related transactions are conducted through standardized contracts. The mission of the company is to develop through a step-by-step process a full-scale natural gas organized market on a regional level, providing continuous trading solutions for natural gas trading transactions with delivery on the Hungarian Natural Gas System and furthermore to increase the market based regional gas turnover.

As the first step of fulfilling its mission, CEEGEX developed and started the operation of a trading platform with continuously traded spot and long term physically delivered future products for the Market Area of Hungary. The role of the 'Day-Ahead' market segment of CEEGEX is taken by the 'Spot' market segment from the 1st of October 2015, in the entrance agreement concluded before this date the reference to the 'Day-Ahead' market segment is equivalent to the reference of 'Spot' market segment. Products tradable on the Spot market also provides support for balancing. From 3 January 2018 CEEGEX provides only spot products on its trading platform due to the fact that the long term physically delivered futures products are considered financial instruments according to the directive 2014/65/EU. The long

term physically delivered future products and OTC clearing support are provided by the HUDEX Hungarian Derivative Energy Exchange Ltd.

6.2. Trading on CEEGEX Market

6.2.1. Position Limits

The Position Limit is a limit established by means of a monetary value within which the CEEGEX Member can trade contracts between two settlement days of the Clearing House. Notification on changes to a CEEGEX Member's position limits will be sent by the Clearing House. CEEGEX, based on the limit information received from the Clearing House, calculates participants' spot market financial position on a real-time basis, where sell transactions increase, while purchase transactions decrease the participants' actual limit. CEEGEX ensures that clients are not allowed to exceed their actual limit, resulting uncovered exposure. The Clearing House publishes the limit calculation method on its website, CEEGEX shall not determine limits towards trading and holding positions.

6.2.2. Trading sessions

Trading on CEEGEX Market takes place during the following official Trading Sessions:

Open Session

During the Open (Continuous Trading) Session Traders of the CEEGEX Members can trade accessible contract series continuously and may submit orders into the order book, which will match when bids and offers are equal or overlap in price. Self-trades are not permitted.

Closed Session

At the end of the Open Session the market will be closed. After the market has been closed and the reference price has been calculated the Order book will be checked for non-compliance with the Market Rules, and the appropriate sanctioning will be performed, if necessary. The applicable procedure in case of non-compliance and the form of the sanctioning shall be communicated in the corresponding Market Notice. Such Market Notice shall be issued after prior opinion of Organized-Market Committee with validity date at least 5 trading days later than the date of issue. The value of the fines (if applicable) will be defined in the Market Notice on the Price List of CEEGEX Markets. Applicable sanctions beyond the above fines are set out in section 2.5.5. of the Market Rules.

After the closure of the market, firm order entry and trading are not permitted.

No Active Session

When a product is not tradeable on a given day the session indicator will be No Active Session. During the No Active Session Active Order entry and trading are not permitted.

Halt Session

The Halt Session is an "override" session that can be scheduled by CEEGEX instantly if necessary to close the market, for example in response to extraordinary market events. At the end of the Halt Session, the system can be quickly returned to the session that was in place prior to the halt.

- All contracts are switched to withhold status.
- The message "Market in Halt. No Trading possible" then appears

- All contracts are shown in light grey in the main trading window and the status of the session is changed to "HALT".
- Contracts cannot be traded.
- Active orders cannot be entered or changed.
- Withheld orders cannot be activated.
- Once trading is resumed, the message "Market set to Trading" appears; the status of the session is changed to that was in place prior to the halt, at this point entering and changing of orders are possible again.
- After the market is set to trading, all withheld orders can be re-activated by its owner (unless the contracts have expired in the meantime) and can be executed provided there is a corresponding Order Book situation.

6.2.3. Trading Days and Hours

CEEGEX will operate the Spot market on all Business Days, as specified in the Trading Calendar published by CEEGEX on its website, during the hours as indicated in the respective Market Notice and as published on the website of CEEGEX.

6.2.4. Bids and offers on the CEEGEX Market Segment

An order is firm with a specified quantity and price in certain Contract. A firm order can be either a buy order with a maximum price or a sell order with a minimum price. Each order must be made in a multiple of the lot size and at a Limit Price that is a multiple of the minimum tick size as these are set out in the Product Specifications.

All valid orders are displayed anonymously in the Trading System. A CEEGEX Member may submit multiple Orders regarding the same Contract.

At the Members' discretion, the following conditions may be attached to an order:

Validity

The following validity periods may be defined during which the Orders remain active unless cancelled by the CEEGEX Member:

- Good until cancelled: the Order stays valid until the last Trading Day;
- Good until date: the Order stays valid until the specified date-time indicated or until the last Trading Day if sooner than;
- Good for day: the order stays valid until the end of the Trading Day when it has been introduced;

Orders can be modified, withheld or deleted as long as no matching has taken place. If an order has been matched partially, then only the unmatched part can be modified, withheld or deleted.

For each Contract, Orders will be ranked by the Trading System according to their Best Price and, further according to the time of entry as a firm order in the Trading System. Any modification in an Order will result in a new time of entry.

An Order remains in the Trading System of CEEGEX up to the time:

- it is matched;
- it is withheld, deleted or modified by the CEEGEX Member;
- it is withheld, because the CEEGEX Member is disconnected;
- it is withheld or deleted by CEEGEX because of the expiration or suspension of the Product or Contract, or because of termination of the Membership Agreement with the CEEGEX Member or suspension of the CEEGEX Member; or any other reason pursuant to the provisions of the Market Rules of CEEGEX.

6.2.5. Order matching

To execute a Trade, a CEEGEX Member may either elect to match a single Order or elect to deal a specified volume in a specific Order. Trades are executed at the time the matching is recorded by the Trading System.

If an Order has been matched, then the remainder, if any, of that Order will retain the time priority originally assigned to it.

The matching of a newly submitted Order against Orders already entered into the Trading System of CEEGEX occurs until the desired volume has been reached or no further matching is possible given the Limit Price of the newly submitted Order and order conditions attached to the Orders. The matching process for Products is as follows:

- In case of selecting a single Order already being firm in the system, the Best Price (lowest sell price when matching a buy Order, highest buy price, when matching a sell Order) is applied. Should there be more Orders at the Best Price, then matching occurs according to the time these Orders were entered into the Trading System, starting from the least recent to the most recent (first in first out principle).
- In case of dealing volume, the Best Price of the Orders already entered into the Trading System is applied. Should there be more Orders at the Best Price, then matching occurs according to the time these Orders were entered into the Trading System, starting from the least recent to the most recent (first in first out principle). If, after applying the abovementioned criteria, the volume is not yet entirely matched, then the second Best Price will be applied, and so on.
- If matching of an Order, already entered into the Trading System, is not possible because of a condition attached to the Order, then such an Order will be ignored in the matching process.
- Hidden quantities are ignored in the matching process.

If a newly submitted Order is not matched, the Order will remain in the Trading System, until withdrawn by the CEEGEX Member or matched by other Orders, subject to any conditions attached to the order.

If a newly submitted order is not matched entirely, then (the non-matched part of) the Order remains in the Trading System, until withdrawn by the CEEGEX Member or matched by other Orders, subject to any conditions attached to the order.

After execution of a Trade in a Cleared Product, CEEGEX will submit the executed Trade to the Clearing House for Clearing.

In place of technical problems a CEEGEX Member can request CEEGEX to place orders in the Trading System on its behalf, if it is temporarily not in a position to place the orders in the Trading System itself. CEEGEX will use this power in a non-discriminatory way and only as long as the CEEGEX Member is unable to place the orders in the Trading System itself. The CEEGEX Member, who has requested CEEGEX to place orders in the Trading System on its behalf, will inform CEEGEX forthwith as soon as the reason for its inability to place orders in the Trading System has been remedied.

6.2.6. Modification of Orders

CEEGEX Members may modify Orders while they remain in the Order Book.

Orders may be modified in respect of the price and the quantity, subject to the following criteria:

- »» A modification in price or an increase in quantity imply a new time of introduction, losing the time priority of the original Order;
- »» A modification implying only in a reduction of the quantity has no effect on the time of introduction of the Order, keeping its time priority.

6.2.7. Removal of the Orders from the Trading System

CEEGEX Members may cancel their Orders that have not been executed as well as the remaining balance of those that have been partially executed.

Whenever a technical problem occurs, CEEGEX may remove from or make the Orders of a CEEGEX Member withheld in the Order Book at the CEEGEX Member's request. In such cases CEEGEX shall require the Trader communicating the request to prove its identification. Should there remain any doubt of the authorization or identification of the person communicating the request, CEEGEX shall reject to fulfil the request.

6.2.8. Mistrade Rules

In the event of a manifest error (wrong entry), CEEGEX Members may request CEEGEX to cancel the Order, if the counterparty accepts the cancellation.

According to the Code of Conduct and fair trade principles, a mistake is recommended to be accepted in any of the following cases:

- »» the entered price refers to another product traded on CEEGEX,
- »» the price digits are shifted compared to the market price,
- »» the digits of the price are swapped compared to the common market price,
- »» the limit price of a sell Order is more than 15% lower than the last traded prices, if not trades for the current day, use the previous day price,
- »» the limit price of a buy Order is more than 15% higher than the last traded prices, if not trades for the current day, use the previous day price,
- »» the trade price differs more than 15% compared to the common market price at CEEGEX

With respect to trades executed on the Trading System, the cancellation request towards CEEGEX must be made by email sent from a registered email address at least 15 minutes prior to the expiration of the product and no later than 20 minutes after the conclusion of the contract. If the request does not meet the deadline stated above, CEEGEX shall not be obliged to fulfil the request. However even in such cases, CEEGEX shall uphold the right to fulfil the request. Cancellation is only possible during the trading hours and before the physical nomination of trades.

CEEGEX contacts the counterparty and asks for its approval to cancel the corresponding Transaction..

CEEGEX will apply the following approach regarding the necessary notification processes:

- If the counterparty cannot be contacted within 30 minutes or if it refuses to cancel the Transaction, CEEGEX contacts (via email) the requesting counterparty in order to inform it that its cancellation request has been refused.
- If the counterparty accepts the cancellation of the Transaction, CEEGEX contacts (via email) the requesting counterparty in order to inform it that its cancellation request has been accepted.

In case the cancellation request has been approved by both counterparties, CEEGEX proceeds with the cancellation of the Transaction.

- The deal will be deleted from the Trading System.
- Information will be sent to Clearing House regarding the mistrade.

For reporting a mistrade, CEEGEX will charge an administrative fee for the party that made the mistrade. Transaction fees for the mistrade will not be charged towards any of the counterparties, in case the cancellation was approved. The payment of clearing fees is subject to the rules and business policies of the Clearing House and the Clearing Members. The administrative fee is in the current Price List and in case of modification CEEGEX Members will be informed by Market Notice.

6.2.10. Order management in case of technical problems

In case there is a temporary difficulty for accessing the Trading Platform of CEEGEX due to technical problems, the CEEGEX Member may request to CEEGEX, by telephone, the introduction, modification or cancellation of Orders.

After receipt of that request, CEEGEX shall provide its best efforts in order to implement, as soon as possible, the request submitted by the CEEGEX Member.
